(i) Any gains or losses on foreign exchange hedging instruments attributable to a particular strategy or sub-asset class have been included in "additions" or "disposals/ receipts" respectively. For example, where a hedging gain or loss is made, this will result in either cash being received or paid, or cash being receivable or payable, which is equivalent to a receipt or disposal.

(ii) Assets characterised as "other equities & credit" consist of investment assets held directly on the balance sheet. For certain contracts for difference (CFD), gross value or required margin is used. Under IFRS, these CFDs are held at fair value which is the unrealised gain or loss at the reporting date. Payments and receipts on the same investment have been netted off against each other.

(iii) Net cash consists of: (1) cash held directly by Tetragon, (2) excess margin held by brokers associated with assets held directly by Tetragon, and (3) cash held in certain designated accounts related to Tetragon's investments, some of which may only be used for designated purposes without incurring significant tax and transfer costs, and (4) adjusted for all other assets and liabilities at the reporting date including any drawn amounts on the revolving credit facility.

## First Quarter 2023 Review

- ◆ **Tetragon's NAV:** NAV increased by \$31.9 million during the first quarter of 2023, driven by net income of +\$37.1 million, and -\$5.2 million of dividends and other capital items. The net income comprises +\$53.7 million of investment gains, -\$12.8 million of operating expenses and management fees, and -\$3.8 million of interest expense.
- ◆ **Largest performance drivers:** Positive contributions primarily came from (1) the investment in Equitix as part of "private equity in asset management companies" (+\$43.4 million) as the business continued to deliver against its business plan (2) investments in Hawke's Point funds and co-investments (+\$15.6 million) as positive developments occurred in each of Hawke's Point's mining projects, most notably with a Final Investment Decision and financing at a new mine at one of its Western Australian gold projects; and (3) "other equities" comprising direct balance sheet investments in listed equity securities (+\$13.1 million); this was driven primarily by two larger technology positions that had sold off in the second half of 2022, despite their resilient business models. These positions have recovered from prior lows in a more supportive growth equity environment.

The largest detractors comprised: (1) investments in the Polygon European Equity Opportunity Fund (-\$13.2 million); (2) bank loan investments in U.S. CLOs managed by LCM (-\$9.2 million) due to declines in expected forward LIBOR and SOFR rates compared to the prior quarter-end, and also the recognition of prospective losses in certain underlying loans which defaulted during the period; and (3) bank loan investments via Tetragon Credit Partners Funds (-\$6.1 million) which were affected by some of the same factors as bank loan investments in U.S. CLOs managed by LCM.
- ◆ **Additions, disposals, and receipts:** Tetragon made additional investments of \$75.9 million, including \$20.0 million into Polygon European Equity Opportunity Fund. \$49.1 million was received, including \$14.1 million from TFG Asset Management, \$11.5 million from bank loan investments, and \$10.0 million from event driven equities, convertible bonds and other hedge funds related to a redemption in the Acasta funds investment.
- ◆ **Cash:** Tetragon's cash balance as at 31 March 2023 was \$176.9 million. Its net cash balance, which is cash adjusted for known accruals and liabilities (short and long-dated), was -\$216.6 million. Tetragon has in place a 10-year \$400 million revolving credit facility of which \$400 million was drawn at 31 March 2023; this liability has been incorporated into the net cash balance calculation.
- ◆ **TFG Asset Management:** AUM for TFG Asset Management was \$41.8 billion at 31 March 2023.<sup>(6)</sup> Headcount was approximately 530 at the end of the quarter (excluding BentallGreenOak).
- ◆ **Dividend:** As set forth in a separate Tetragon announcement, the Board of Directors declared a dividend of \$0.11 per share in respect of the first quarter of 2023.
- ◆ **Other:** In April 2023, under the terms of "modified Dutch auctions", Tetragon accepted for purchase 2,325,574 non-voting shares at an aggregate cost of \$25.1 million, including applicable fees and expenses of \$0.1 million.

### NAV Per Share Total Return and Share Price Total Return Since IPO<sup>(7)</sup>

### Investment Breakdown<sup>(8)</sup>

### Geographic Breakdown<sup>(9)</sup>

**Currency Exposure:** Tetragon is a U.S. dollar-based fund and reports all of its metrics in U.S. dollars. Note that currently approximately 50% of the Equitix GBP denominated exposure is not hedged back to U.S. Dollars.

## Important Information

This Monthly Factsheet does not contain or constitute an offer to sell or a solicitation of an offer to purchase securities in the United States or any other jurisdiction. The securities of Tetragon have not been and will not be registered under the U.S. Securities Act of 1933 and may not be offered or sold in the United States or to U.S. persons unless they are registered under applicable law or exempt from registration. Tetragon does not intend to register any portion of its securities in the United States or to conduct a public offer of securities in the United States. In addition, Tetragon has not been and will not be registered under the U.S. Investment Company Act of 1940, and investors will not be entitled to the benefits of such Act. Tetragon is registered in the public register of the Netherlands Authority for the Financial Markets under Section 1:107 of the Financial Markets Supervision Act as an alternative investment scheme from a designated country.

### Notes:

Tetragon Financial Group Limited is referred to in this Monthly Factsheet as Tetragon.

- NAV Per Share Total Return (NAV Total Return) month to date and year to date as of the date of this Monthly Factsheet; annualised to the date of this Monthly Factsheet over the last five years, the last ten years, and since Tetragon's initial public offering in April 2007. NAV Total Return is determined in accordance with the "NAV total return performance" calculation as set forth on the Association of Investment Companies (AIC) website. Tetragon's NAV Total Return is determined for any period by calculating, as a percentage return on the Fully Diluted NAV Per Share (NAV Per Share) at the start of such period, (i) the change in NAV Per Share over such period, plus (ii) the aggregate amount of any dividends per share paid during such period, with any dividend deemed reinvested at the NAV Per Share at the month end date closest to the applicable ex-dividend date (i.e., so that the amount of any dividend is increased or decreased by the same percentage increase or decrease in NAV Per Share from such ex-dividend date through to the end of the applicable period). NAV Per Share is calculated as Net Assets divided by Fully Diluted Shares Outstanding. Source: Tetragon.
- Return on Equity is calculated as Adjusted Net Income divided by Net Assets at the start of the year. Tetragon seeks to deliver 10-15% Return on Equity (RoE) per annum to shareholders. Tetragon's returns will most likely fluctuate with LIBOR or an equivalent risk-free short-term rate which directly flows through some of Tetragon's investments; therefore, in high-LIBOR environments, Tetragon should achieve higher sustainable returns; in low-LIBOR environments, Tetragon should achieve lower sustainable returns. Please note that (i) from 31 December 2021, LIBOR has been replaced by an appropriate alternate rate as advised by ISDA in the IBOR Fallbacks Protocol, although certain LIBOR settings will continue to be calculated and published using panel bank submissions until 30 June 2023, and (ii) LIBOR will no longer be available beginning 1 July 2023, and the market generally is replacing LIBOR with the Secured Overnight Funding Rate (SOFR), which tracks the interest rate on borrowings collateralized by U.S. Treasury securities.
- The dividend yield represents the last four quarterly dividends divided by the TFG NA share price at the date of this Monthly Factsheet. The 5-year Compound Annual Growth Rate (CAGR) figure is at 31 March 2023. Each of the foregoing includes in its calculation the latest declared dividend.
- With the exception of share repurchases (when applicable), all of the Fully Diluted NAV Per Share movements in the table are determined by reference to the fully diluted share count at the start of the period. Other share dilution/accretion captures the impact of, where applicable, and among other things: scrip dividends and additional recognition of equity-based compensation shares.
- Any gains or losses on foreign exchange hedging instruments attributable to a particular strategy or sub-asset class have been included in "Additions" or "Disposals/Receipts", respectively. For example, where a hedging gain or loss is made, this will result in either cash being received or paid, or cash being receivable or payable, which is equivalent to a receipt or disposal. Net cash is calculated as the cash balance adjusted for all other net assets/(liabilities) as at the reporting date including any drawn amounts on the revolving credit facility.
- Includes the AUM of LCM, BentallGreenOak, Polygon, Acasta Partners, Equitix, Hawke's Point, Tetragon Credit Partners, Banyan Square Partners, Contingency Capital and TCICM. Includes, where relevant, investments by Tetragon. The AUM of Polygon, Acasta Partners, Hawke's Point and Banyan Square Partners is NAV as calculated by the applicable fund administrators. The AUM for LCM and TCICM is the aggregate value of collateral in each CLO as determined the applicable trustee. TCICM (which comprises TCI Capital Management II LLC and TCI Capital Management LLC) acts as a CLO collateral manager for certain CLO investments and had AUM of \$2.5 billion at 31 March 2023. The AUM for Equitix and Tetragon Credit Partners is based on committed capital. The AUM for Contingency Capital is the sum of uncalled committed capital and the NAV as calculated by the applicable administrator. The AUM for BentallGreenOak represents Tetragon's pro rata share (12.86%) of BentallGreenOak AUM at 31 December 2022 (\$82.6 billion). Equitix AUM uses the USD-GBP exchange rate at 31 March 2023.
- Label numbers have been rounded. (i) NAV Per Share Total Return as of the date of this Monthly Factsheet since Tetragon's initial public offering in April 2007. See Note 1 for further information. (ii) Total shareholder return to the date of this Monthly Factsheet, defined as share price appreciation including dividends reinvested since Tetragon's initial public offering in April 2007; sourced from Bloomberg. (iii) Any Indices and other financial benchmarks are provided for illustrative purposes only. Comparisons to indices have limitations because, for example, indices have volatility and other material characteristics that may differ from the fund. Any index information contained herein is included to show general trends in the markets in the periods indicated, is not meant to imply that these indices are the only relevant indices and is not intended to imply that the portfolio or investment was similar to any particular index either in composition or element of risk. The indices shown here have not been selected to represent an appropriate benchmark to compare an investor's performance, but rather is disclosed to allow for comparison of the investor's performance to that of certain well-known and widely-recognised indices. The volatility of the indices may be materially different from the individual performance attained by a specific investor. In addition, the fund's holdings may differ significantly from the securities that comprise the indices. The MSCI ACWI captures large and mid-cap representation across 23 developed Markets and 25 emerging markets countries. With 2,966 constituents, the index covers approximately 85% of the global investable equity opportunity set. Further information relating to the index constituents and calculation methodology can be found at [www.msci.com/acwi](http://www.msci.com/acwi). The FTSE All-Share Index represents 98-99% of U.K. market capitalisation and is the aggregate of the FTSE 100, FTSE 250 and FTSE Small Cap indices. Further information relating to the index constituents and calculation methodology can be found at [www.ftse.com/products/indices/uk](http://www.ftse.com/products/indices/uk). (iv) Cumulative return determined on a quarterly compounding basis using the actual Tetragon quarterly incentive fee LIBOR based hurdle rate. In the period from IPO to June 2008 this was 8%; thereafter, the hurdle has been determined using the three-month USD LIBOR rate on the first day of each calendar quarter, as sourced from Bloomberg, plus a spread of 2.647858%.
- Assets characterised as "other equities and credit" consist of investment assets held directly on the balance sheet. For certain contracts for difference (CFD), gross value or required margin is used. Under IFRS, these CFDs are held at fair value which is the unrealised gain or loss at the reporting date. Payments and receipts on the same investment have been netted off against each other.
- Event-driven equities, convertible bonds, other hedge funds, private equity and venture capital, 'legal assets' and 'other equities and credit' investments are based on the geographies of the underlying portfolio assets. U.S. CLOs and Tetragon Credit Partners funds (bank loans) are treated as 100% North America. LCM, Tetragon Credit Partners, Banyan Square Partners, and Contingency Capital (TFG Asset Management) are treated as 100% North America. Acasta Partners (TFG Asset Management) is treated as 80% Europe and 20% North America. BentallGreenOak (TFG Asset Management) is treated as 24% Europe, 66% North America, 10% Asia-Pacific. Polygon and Equitix (TFG Asset Management) are treated as 100% Europe. Hawke's Point (TFG Asset Management) is treated as 100% Asia-Pacific.
- Shareholdings at 31 March 2023 of the principals of Tetragon's investment manager and employees of TFG Asset Management, including all deferred compensation arrangements (other than with respect to shares that are subject to performance criteria). Please refer to the Tetragon Financial Group Limited 2022 Audited Financial Statements for more details of these arrangements.
- Annual calculation as at 31 December 2022. The ongoing charges figure is calculated as defined by the AIC, and comprises all direct recurring expenses to Tetragon expressed as a percentage of average Net Assets, and includes the annual management fee of 1.5%.
- Tetragon notes the U.K. Financial Conduct Authority (FCA) rules relating to the restrictions on the retail distribution of unregulated collective investment schemes and close substitutes (referred to as "non-mainstream pooled investments"), which came into effect on 1 February 2014. Tetragon has received appropriate legal advice that confirms that its shares do not constitute NMPI under the FCA's rules and are, therefore, excluded from the FCA's restrictions that apply to non-mainstream pooled investment products. Tetragon expects that it will continue to conduct its affairs in such a manner that its shares will continue to be excluded from the FCA's rules relating to NMPI.

\*\* Tetragon Legal Shares Issued and Outstanding: 139.7 million.
