(i) Any gains or losses on foreign exchange hedging instruments attributable to a particular strategy or sub-asset class have been included in "additions" or "disposals/ receipts" respectively. For example, where a hedging gain or loss is made, this will result in either cash being received or paid, or cash being receivable or payable, which is equivalent to a receipt or disposal.

(ii) Assets characterised as "other equities and credit" consist of investment assets held directly on the balance sheet. For certain contracts for difference (CFD), gross value or required margin is used. Under IFRS, these CFDs are held at fair value which is the unrealised gain or loss at the reporting date. Payments and receipts on the same investment have been netted off against each other.

(iii) Net cash consists of: (1) cash held directly by Tetragon, (2) excess margin held by brokers associated with assets held directly by Tetragon, and (3) cash held in certain designated accounts related to Tetragon's investments, some of which may only be used for designated purposes without incurring significant tax and transfer costs, and (4) adjusted for all other assets and liabilities at the reporting date including any drawn amounts on the revolving credit facility.

First Quarter 2024 Review

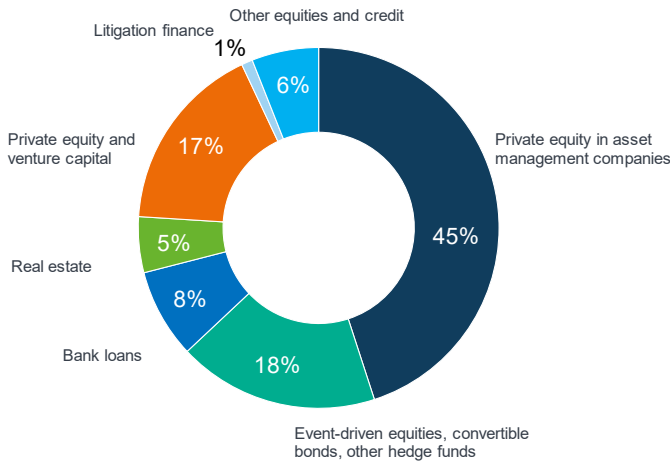

- ◆ **Tetragon's NAV:** NAV increased by \$4.8 million during the first quarter of 2024, driven by net income of +\$15.0 million, and -\$10.2 million of dividends and other capital items. The net income comprises +\$32.1 million of investment gains, -\$12.0 million of operating expenses and management fees, and -\$5.1 million of interest expense.
- ◆ **Largest performance drivers:** Positive contributions primarily came from (1) the investment in Equitix as part of "private equity in asset management companies" (+\$45.9 million), which includes \$19.2 million of dividend income received from Equitix and \$26.7 million of valuation gains as the business continues to raise funds and grow earnings; (2) the investment in BGO as part of "private equity in asset management companies" (+\$19.0 million) due to increase in the value of put/call option and higher expected carried interest; and (3) other equities (+\$19.0 million) with gains driven by a biotechnology position showing a strong early launch for their recently approved drug, as well as additional positive phase 2 trial data.
The largest detractors comprised: (1) the investment in the Westbourne River Event Fund - Low Net (-\$33.5 million), as mid-cap stocks in Europe underperformed vs. broader equity indices; (2) the investment in LCM as part of "private equity in asset management companies" (-\$13.1 million) as existing deals continue to amortise and market conditions for new deals remain challenging; and (3) the investment in the Westbourne River Event Fund – Long Bias (-\$11.5 million).
Additions, disposals, and receipts: Tetragon made additional investments of \$70.1 million, including \$29.8 million in other equities and credit positions, \$17.1 million in private equity and venture capital positions, and \$12.0 million in private equity in asset management companies. Receipts totalled \$134.7 million, including \$74.1 million from other equities and credit, \$25.0 million from private equity in asset management companies, and \$17.7 million from bank loans.
- ◆ **Cash:** Tetragon's cash balance as at 31 March 2024 was \$33.9 million. Its net cash balance, which is cash adjusted for known accruals and liabilities (short and long-dated), was -\$205.8 million. Tetragon has in place a 10-year \$400 million revolving credit facility of which \$200 million was drawn at 31 March 2024; this liability has been incorporated into the net cash balance calculation.
- ◆ **TFG Asset Management:** AUM for TFG Asset Management was \$40.8 billion at 31 March 2024.⁽⁶⁾ Headcount was approximately 530 at the end of the first quarter (excluding BGO).
- ◆ **Dividend and Share Repurchases:** As set forth in a separate Tetragon announcement, the Board of Directors declared a dividend of \$0.11 per share in respect of the first quarter of 2024.
On 11 April 2024, Tetragon announced that it repurchased 2,439,015 non-voting shares at a purchase price of \$10.25 per share. The aggregate cost of this purchase is \$24,999,903.75, excluding fees and expenses relating to the tender offer. Please refer to the Final Results announcement for full details.
- ◆ **Other:** Tetragon and TFG Asset Management have executed definitive agreements with respect to a direct lending business to be launched later in 2024. Tetragon will be providing working capital and co-investment capital and TFG Asset Management will be providing operating infrastructure. TFG Asset Management will own a significant minority stake in the venture.

Important Information

This Monthly Factsheet does not contain or constitute an offer to sell or a solicitation of an offer to purchase securities in the United States or any other jurisdiction. The securities of Tetragon have not been and will not be registered under the U.S. Securities Act of 1933 and may not be offered or sold in the United States or to U.S. persons unless they are registered under applicable law or exempt from registration. Tetragon does not intend to register any portion of its securities in the United States or to conduct a public offer of securities in the United States. In addition, Tetragon has not been and will not be registered under the U.S. Investment Company Act of 1940, and investors will not be entitled to the benefits of such Act. Tetragon is registered in the public register of the Netherlands Authority for the Financial Markets under Section 1:107 of the Financial Markets Supervision Act as an alternative investment scheme from a designated country.

Notes:

Tetragon Financial Group Limited is referred to in this Monthly Factsheet as Tetragon.

- NAV Per Share Total Return (NAV Total Return) month to date and year to date as of the date of this Monthly Factsheet; annualised to the date of this Monthly Factsheet over the last five years, the last ten years, and since Tetragon's initial public offering in April 2007. NAV Total Return is determined in accordance with the "NAV total return performance" calculation as set forth on the Association of Investment Companies (AIC) website. Tetragon's NAV Total Return is determined for any period by calculating, as a percentage return on the Fully Diluted NAV Per Share (NAV Per Share) at the start of such period, (i) the change in NAV Per Share over such period, plus (ii) the aggregate amount of any dividends per share paid during such period, with any dividend deemed reinvested at the NAV Per Share at the month end date closest to the applicable ex-dividend date (i.e., so that the amount of any dividend is increased or decreased by the same percentage increase or decrease in NAV Per Share from such ex-dividend date through to the end of the applicable period). NAV Per Share is calculated as Net Assets divided by Fully Diluted Shares Outstanding. Source: Tetragon.
- Return on Equity is calculated as Adjusted Net Income divided by Net Assets at the start of the year. Over longer time horizons, Tetragon's returns will most likely reflect sensitivity to the underlying short term risk-free rate regime. Therefore, after periods of transition to high-SOFR environments, Tetragon should achieve higher sustainable returns; after periods of transition to low-SOFR environments, Tetragon should achieve lower sustainable returns. The "Annual Average Since IPO" figure includes the current year.
- The dividend yield represents the last four quarterly dividends divided by the TFG NA share price at the date of this Monthly Factsheet. The dividend yield and the 5-year Compound Annual Growth Rate (CAGR) include the latest declared dividend in their calculation.
- With the exception of share repurchases (when applicable), all of the Fully Diluted NAV Per Share movements in the table are determined by reference to the fully diluted share count at the start of the period. Other share dilution/accretion captures the impact of, where applicable, and among other things: scrip dividends and additional recognition of equity-based compensation shares.
- Any gains or losses on foreign exchange hedging instruments attributable to a particular strategy or sub-asset class have been included in "Additions" or "Disposals/Receipts", respectively. For example, where a hedging gain or loss is made, this will result in either cash being received or paid, or cash being receivable or payable, which is equivalent to a receipt or disposal. Net cash is calculated as the cash balance adjusted for all other net assets/(liabilities) as at the reporting date including any drawn amounts on the revolving credit facility.
- Includes the AUM of LCM, BGO, Westbourne River Partners, Acasta Partners, Equitix, Hawke's Point, Tetragon Credit Partners, Banyan Square Partners, Contingency Capital and TCICM. Includes, where relevant, investments by Tetragon. The AUM of Westbourne River Partners, Acasta Partners, Hawke's Point and Banyan Square Partners is as calculated by the applicable fund administrators. The AUM for LCM and TCICM is the aggregate value of collateral in each CLO as determined by the applicable trustee. The AUM for Equitix and Tetragon Credit Partners is based on committed capital. The AUM for Contingency Capital is the sum of uncalled committed capital and the NAV as calculated by the applicable administrator. The AUM for BGO represents Tetragon's *pro rata* share (12.86%) of BGO AUM at 31 December 2023 (\$85.6 billion). Equitix AUM uses the USD-GBP exchange rate at 31 March 2024. TCICM (which comprises TCI Capital Management II LLC and TCI Capital Management LLC) acts as a CLO collateral manager for certain CLO investments and had AUM of \$2.2 billion at 31 March 2024.

- Label numbers have been rounded. (i) NAV Per Share Total Return as of the date of this Monthly Factsheet since Tetragon's initial public offering in April 2007. See Note 1 for further information. (ii) Total shareholder return to the date of this Monthly Factsheet, defined as share price appreciation including dividends reinvested since Tetragon's initial public offering in April 2007; sourced from Bloomberg. (iii) Any indices and other financial benchmarks are provided for illustrative purposes only. Comparisons to indices have limitations because, for example, indices have volatility and other material characteristics that may differ from the fund. Any index information contained herein is included to show general trends in the markets in the periods indicated, is not meant to imply that these indices are the only relevant indices, and is not intended to imply that the portfolio or investment was similar to any particular index either in composition or element of risk. The indices shown here have not been selected to represent an appropriate benchmark to compare an investor's performance, but rather is disclosed to allow for comparison of the investor's performance to that of certain well-known and widely-recognised indices. The volatility of the indices may be materially different from the individual performance attained by a specific investor. In addition, the fund's holdings may differ significantly from the securities that comprise the indices. The "MSCI ACWI Index" refers to the MSCI All Country World Index (USD) which captures large and mid-cap representation across 23 developed markets and 24 emerging markets countries. With 2,921 constituents, the index covers approximately 85% of the global investable equity opportunity set. Further information relating to the index constituents and calculation methodology can be found at www.msci.com/acwi. The FTSE All-Share Index represents 98-99% of U.K. market capitalisation and is the aggregate of the FTSE 100, FTSE 250 and FTSE Small Cap indices. Further information relating to the index constituents and calculation methodology can be found at https://www.lseg.com/en/ftse-russell/indices/uk_ (iv) Cumulative return determined on a quarterly compounding basis using the actual Tetragon quarterly incentive fee SOFR based hurdle rate. In the period from IPO to June 2008 this was 8%; July 2008 to June 2023, this was three-month USD LIBOR rate on the first day of each calendar quarter, plus a spread of 2.647858%; thereafter, the hurdle rate has been determined using the three-month term SOFR rate on the first day of each calendar quarter, as sourced from Bloomberg, plus a spread of 2.747858%.
- Assets characterised as "other equities and credit" consist of investment assets held directly on the balance sheet. For certain contracts for difference (CFD), gross value or required margin is used. Under IFRS, these CFDs are held at fair value which is the unrealised gain or loss at the reporting date. Payments and receipts on the same investment have been netted off against each other.
- Event-driven equities, convertible bonds, other hedge funds, 'private equity and venture capital', 'legal assets', and 'other equities and credit' investments are based on the geographies of the underlying portfolio assets. U.S. CLOs and Tetragon Credit Partners funds (bank loans) are treated as 100% North America. In 'private equity in asset management companies', LCM, Tetragon Credit Partners, Banyan Square Partners, and Contingency Capital are treated as 100% North America; Acasta Partners as 80% Europe and 20% North America; BGO as 66% North America, 24% Europe, 10% Asia-Pacific; Westbourne River Partners and Equitix as 100% Europe; and Hawke's Point as 100% Asia-Pacific.
- Shareholdings at 31 March 2024 of the principals of Tetragon's investment manager and employees of TFG Asset Management, including all deferred compensation arrangements (other than with respect to shares that are subject to performance criteria). Please refer to the Tetragon Financial Group Limited 2023 Audited Financial Statements for more details of these arrangements.
- Annual calculation as at 31 December 2023. The ongoing charges figure is calculated as defined by the AIC, and comprises all direct recurring expenses to Tetragon expressed as a percentage of average Net Assets, and includes the annual management fee of 1.5%.
